

Mid-Chapter Review—Study Guide

STUDENT BOOK PAGES 2–19

A. Enter facts that you know about the factors and multiples of a number.

| Number | |
|---------|-----------|
| Factors | Multiples |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |
| _____ | _____ |

B. Use the two Venn diagrams to show how you can find the least common multiple (LCM) of two numbers and the greatest common factor (GCF) of two numbers.
